

Prodjuser Qu-16 Flightcase voor Allen & Heath Qu16

Model: 089QU16

Merk: Prodjuser

The ProDJuser Qu-16 flight case is specifically designed for the Allen & Heath Qu-16 digital live console. Instead of a heavy type case its design is based on weight and ease of transport, if needed by just one person. The A&H and Qu-16 logo on the lid makes the case more personal for the product – we thought this is a nice extra touch.

The lid can only be positioned with the logo facing the frontside of the console – both butterfly locks are positioned off-centre. Inside you will find a piece of foam with velcro that should be positioned above the top edge of the console – fixing it even more firmly. The front of the console is equalled to the foam – easier to rest your hands while mixing.

Check out these pro features:

- Made from 9mm plywood with a hard protective black top-layer
- Storage space for cables, hard-drives, network devices, a clean t-shirt etc.
- Professional handles and butterfly-locks from PENN ELCOM™
- Width 694mm, Height 264mm (lid 175mm), Depth 504mm
- Weight approx. 12Kg
