

Audiophony BM-Control ringleiding meetinstrument

Model: 092H11388

Merk: Audiophony

Magnetic loop measuring device

- The BM-Control allows the commissioning of an installation and the certification of its conformity.
- This manual and ergonomic measuring instrument has two calibrated measuring functions and two types of filters to remove background noise and magnetic field strength.
- Using a headset, the BM-Control allows you to listen to and control the installation of your magnetic loop.
