

NewHank Aerobix XL

Model: 089NEWHANKAEROBIXXL

Merk: Newhank

The Newhank Aerobix XL is a professional and easy to operate 6 channel stereo 1 U rack mixer with 4 stereo line and 2 balanced microphone inputs, that can be individually set to accept line levels and/or can both act as a 1 stereo balanced line input to be the input for another stereo mixer.

The Aerobix XL stereo output can be connected via a pair of – XLR and/or -unbalanced RCA connectors. With only outboard level-control, Aerobix XL is ideal in situations were many, or unskilled operators are adjusting sound...

Key Features:

- Compact 1u low noise audio design
- 2 Mic inputs both on 6,3 mm Jack and XLR connectors
- 2 Mic inputs can be individually switched to line level and can act together as 1 stereo input
- 3 stereo RCA Line inputs
- 1 stereo 3.5mm Jack input on the front panel
- Adjustable “Auto Talk Over”
- Individual volume controls
- Bass and treble controls can be adjusted with a screwdriver
- “Music Mute” switch
- Stereo master output both on RCA and XLR
- Min/Max output level can be set on the rear panel
