Merk: Contest

Vertical 16x16mm Neon effect silicone tube for 10/12mm LED ribbon – 5m

Silicone tubes can be used to turn LED ribbons into “neon” by diffusing the light on the top or side in a uniform way, just slide the ribbon inside with the built-in wire puller. The fixing accessories allow all shapes while respecting the radius of curvature. The plugs ensure the watertightness once glued with silicone.

- Vertical 16 x 16 mm Neon effect silicone tube for 10/12 mm LED ribbon – 5 m.
- Compatible with all 10/12 mm monochrome, color or pixel ribbons (**IP20 only**).
