Silicone tube 12x20mm Neon effect for LED ribbon 10mm – 5m

Silicone tubes can be used to turn LED ribbons into “neon” by diffusing the light on the top or side in a uniform way, just slide the ribbon inside with the built-in wire puller. The fixing accessories allow all shapes while respecting the radius of curvature. The plugs ensure the watertightness once glued with silicone.

- Silicone tube 12 x 20 mm Neon effect for LED ribbon 10 mm – 5 m.
- Compatible with all ribbons (**IP20 only**) 10 mm monochrome, color or pixel.
